

Supporting Breastfeeding Moms in the Workplace

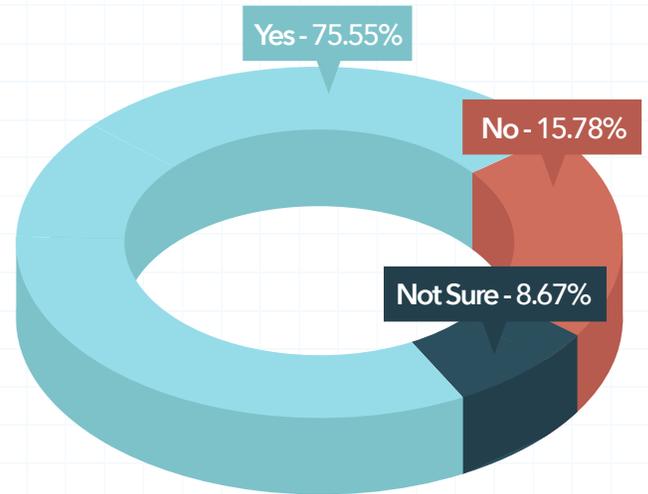

A SCORECARD

We wanted to know if breastfeeding moms in the workplace were feeling supported, so we surveyed 770+ expectant moms to understand their experience.

Does your Place of Employment have a **Designated Lactation Area**?

Do you **Plan to Breastfeed** when you Return to Work?

Do you think there is a stigma attached to moms who breastfeed at work:
Yes - 62.61%

Are you concerned that breastfeeding at work could impact your career growth:
Yes - 49.03%

Has the need to breast pump at work made you consider a job/career change:
Yes - 47.09%

Have you ever had a negative interaction with a co-worker because of breastfeeding/pumping:
Yes - 34.90%

Survey of 774 expectant mothers living in the United States, primarily between the ages of 18-40.
Survey conducted by a third-party survey administrator, Survey Monkey.
